Activities and initiatives that the committee has completed during this past year:

During this past year our SIG has continued on with our open monthly forum via our listserv had as succeeded in developing discussions among our members.

A few of our members got together over a conference call and discussed our conference proposal. We worked together to develop our session. We submitted our proposal and unfortunately were not chosen for this years conference.

We organized a successful Vancouver New Professionals meetup, and encouraged New Professionals in other cities to do the same.

Activities and initiatives that the committee hopes to tackle for the next business year:

Over the next year we hope to continue with the successful monthly open forum as it allows us to keep open communication with the members. We also hope to propose a successful conference proposal for the next CALL Conference. We also wish to set up more meetups in the future either virtual or in person.

Sincerely,

Suzanne Jay & Allyssa McFadyen
